

# "We Serve"...so others may SEE

## Burnaby Lougheed Lions Club Fundraiser Campaign Sightfirst II Wristbands

Get yours today,  
only \$7.00 each, and  
you'll be giving someone  
in a Third World country  
the gift of sight!

Buy a wristband, and you can make a difference in the life of someone from a Third World Country. Millions of people are suffering from mostly preventable eye diseases in many countries around the world, and Campaign Sightfirst II, a worldwide fundraising program through Lions Clubs International, is working to help eradicate preventable blindness.

Lions Clubs from around the world are contributing to this program, and your purchase of these eye-catching, trendy wristbands will do so much good.

***The average cost of an eye procedure in the Third World is about \$7.00 Cdn.*** Yet millions are suffering

because they just cannot afford that kind of money. This program will help ensure they get the help they need, and with their vision restored, they will have hope for a better future.

***Each wristband is just \$7.00,*** and all the proceeds will go towards Campaign Sightfirst II, to help others less fortunate be able to see again. Just think, your purchase of this cute little wristband will have a direct impact on the life of someone a world away—they'll be able to see again!

The Burnaby Lougheed Lions Club thanks you for your support.
